

Babel Tower

babel tower rise
steel and steeless beaming
here there and beyond the galaxy
glass louver, boxes on hoist
revolving doors and lateral stairways
take you to the next level
fire cannot escape
only the ideas can

spy laden streets
like sheets of Ice
subways, water ways
graves in caves
the perfect chill
tegumenting underground life

cellulars and pagers
Lab tops and lazars
secular displayed bodies
button pushing populace

a world of seclusion
void of touch
in cellars and posh villas
no new charge to get lost
in the crowd
